

History & Nowadays

1992
Aage Hempel had a very bright idea to move to Algeciras (Spain) for operations on commercial vessels for one of our best and largest customers (Danish Shipowner) due to a new container terminal that had opened.
At this time Aage Hempel was 1 customer & 1 employee

2008
Arbulu group takes over 100% of Aage Hempel

2010
Aage Hempel Mega Yacht Division was formally setup

2012
20 year later Aage Hempel Carries out over 9,000 services per year on more than 6,000 vessels WORLD WIDE.

2013
Aage Hempel & Crame integration to form the largest Marine electronic service company in Southern Europe, covering most major marine electronic manufacturers.

Integrated Bridge Systems**

Aage Hempel Mega Yachts

About Us

Aage Hempel Mega-Yacht division was set up in January 2010 and it is part of Aage Hempel Group.

Throughout these years we have built a very good relationship with our customers, providers as well as manufactures and classification societies, becoming a reference in the Electronics field.

We are specialized in integrated bridge systems and project management.

Our technical department offers a 24/7 service to our customers both, locally and overseas.
