## aage hempel MARINE ELECTRONICS

### History & Nowadays

Aage Hempel had a very bright idea to move to Algeciras (Spain) for operations on commercial vessels for one of our best and largest customers (Danish Shipowner) due to a new container terminal that had opened.

At this time Aage Hempel was 1 customer & 1 employee

Arbulu group took over 100% of Aage Hempel

Aage Hempel Mega Yacht Division was formally setup

20 years later Aage Hempel Carried out over 9,000 services per year on more than 6,000 vessels WORLD WIDE.

Aage Hempel & Crame integrate to form the largest Marine electronic service company in Southern Europe, covering most major marine electronic manufacturers

Specialists in  
**Project Management and  
Integrated Bridge Systems**

## Aage Hempel Mega Yachts

### About Us

Aage Hempel Mega-Yacht division was set up in January 2010 and it is part of Aage Hempel Group.

Throughout these three years we have built a excellent relationship with our customers, providers as well as manufactures and classification societies, becoming a reference in the Electronics field.

We are specialized in integrated bridge systems and project management.

Our technical department offers a 24/7 service to our customers both, locally and overseas.
