Press Release September 2014

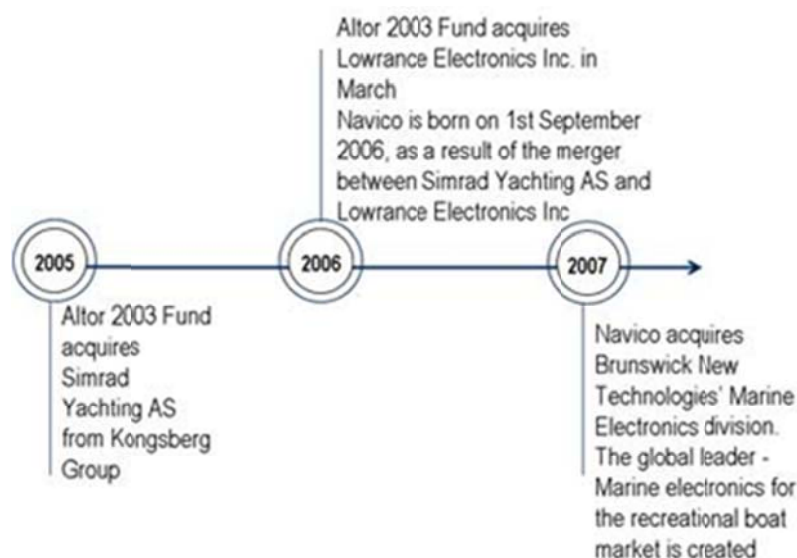

## **Aage Hempel Netherlands b.v. signs contract with Navico Europe b.v. for service & distribution of SIMRAD products.**

*Aage Hempel, leader in worldwide merchant marine electronic service and focused on 24/7 maritime sales & service, signs agreement for service & distribution of Simrad products for the professional marine market in the BeNeLux. Especially for work boats and patrol, mega yachts, fishery, passenger ships, OSV's and merchant vessels.*

### **ABOUT NAVICO**

Navico is currently the world's largest marine electronics company, and is the parent company to leading marine electronics brands: Lowrance, Simrad and B&G. Navico has approximately 1,500 employees globally and distribution in more than 100 countries worldwide.

Navico was born as a fusion of two of the most important international players in marine electronics, Simrad Yachting and Lowrance Electronics. With the addition of Brunswick New Technologies' marine electronics division in March 2007, Navico is truly a house of brands, with the B&G, Eagle, MX Marine, Lowrance, Navman, Northstar, and Simrad brands all manufactured and distributed under the Navico umbrella.

### **ABOUT AAGE HEMPEL GROUP**

Aage Hempel was founded in 1933 in Denmark. In 1992 Aage Hempel Spain was opened with a small office in Algeciras and over the years we have built the company into what it is today. In 2008 it was sold

to the present owners who are the Arbulu Group, a company also involved in the Marine Electronics Industry in Spain. In 2013 Aage Hempel started in The Netherlands with offices in Rhooen, Harlingen and Terneuzen in order to provide a better support to our customers in The Netherlands and Belgium. Aage Hempel Group is proud of having a high reputation worldwide as a maritime electronics specialist and is supported by a global network of well-known manufacturers and service partners, authorized by all major classification societies, and a Group ISO 9001:2008 Quality System and ISO 14001:2004 Management System certified by DNV.

Our technical engineering department has more than 90 years of experience combined and are at our customer's disposal for any technical questions or solutions which may be required. In the technical department we also create the required technical drawings when looking to install large new equipment on board your vessels.

Aage Hempel group employs more than 140 people worldwide in 20 own branches and has hundreds of customers in the international shipping market: deep sea ship-owners / Ship-managers, shipyards, government, service partners and ship agents.
